**Sun and Shadow Report – 1354 Gordon St, Guelph, ON N1L 1C8**

Angles are based in City of Guelph Sun and Shadow Study Terms of Reference.

Latitude: 43° 32'35"N  
Longitude: 80°14'55"W

Time Zone: Eastern

Standard Time (EST): UTC- 5 hours (applies December 21)  
Daylight Saving Time (EDT): UTC – 4 hours (applies April, June and September)

Base mapping source: Google Maps and Site Survey

Astronomic North: Determined by compass angle calculation on site

The Shadow Impact Criteria is met as the residential amenity spaces does not receive any incremental shadow for more than two consecutive test times (Shadow Impact Criteria 1. Residential amenity spaces), and full sunlight is provided to the opposite sidewalk on September 21 (Shadow Impact Criteria 3. Public realm including sidewalks, open spaces and plazas).

I trust that this is in order, if you have any questions please call me directly.
