Manager's Message

I am happy to present the 3rd annual report from the Bylaw Compliance, Security and Licensing Department.

2013 continued to busy year for the Department with a number of initiatives being undertaken. Some of these initiatives were visible to the public such as the creation of the Nuisance Party Bylaw and the creation of a Driver Instructor License category, while others such as the improved business licensing process and the refined fire route administration process were not. All were to integral to the improvement of customer service.

The challenge of allocating staff resources between Bylaw Compliance, Security and other duties such as crossing guard coverage continued in 2013. As well, in 2013, staff were tasked with a unique situation unknown to the City before, specifically the temporary relocation of the Hamilton Tiger Cats. This event required staff from the Licensing Division and the Bylaw Compliance and Security Division to implement plans to ensure the success of the games while reducing the potential impact to neighbouring properties.

Opportunities for community involvement and communication grew, in 2013 the Community Engagement framework was utilized for a number of projects and through amendments to the City's Fireworks Bylaw, we recognized diversity within the City. The Department continued to play an important role in the Ontario Municipal Law Enforcement Officers Association and hosted a number of training opportunities for City staff and staff of other municipalities.

2013, a number of efficiencies were realized and implemented such as a streamlined business license renewal process including new payment options for business owners.

In closing, I would like to extend my thanks to the Department staff, who through their continued pride and dedication within their work provided excellent customer service to our residents in 2013.

2013 Performance

The performance scorecards for Bylaw Compliance, Security & Licensing consist of both KPIs and Statistics. Both types of measurements are needed to effectively manage the department. The scorecard identifies performance for the current reporting period and one previous reporting period. Trend analysis is provided through the performance charts of the scorecard.

Performance is broken into four key areas:

- Financial
- Customer Service
- Internal Processes
- Organizational Capacity

Definitions

Key Performance Indicator (KPI): A measurement of the degree or status of progress towards goals and objectives. It is a measurement that can be influenced through management actions.

Statistic: A measurement that provides information on trends or events. Management activities often have minimal impact on statistics, such as number of customer calls or quantity of visits. Statistics inform activity that can impact the key performance indicators.

Trend: The direction that a measure (statistic or KPI) is moving. It can be towards or away from the target/goal.

- The results are positively trending. Meaning they are moving closer to target.
- The results are negatively trending. Meaning they are moving away from the target.

Status:

- The results are positive and within target, no action is necessary.
- The results are in range of the target, but not yet achieving target, some mitigating action may be necessary.
- The results are outside the target range and corrective actions/initiatives are required to correct performance.
Financial Performance

Monitoring our operating budget performance provides us the necessary information to manage the department and ensure services are provided to the community efficiently and within the approved funding levels.

When staff are not engaged in bylaw compliance and enforcement activities there is a negative impact on revenue.

As witnessed in 2013, where providing crossing guard duties and animal control impacted revenues.

The department focus is on compliance and education.

Greater compliance equates to a reduction in fines.
Customer Service

Monitoring customer service provides information on how we appear to our customers, internal and external. This information helps direct our focus and priorities for continuous improvement activities.

Population is based on current census results at the time of measurement.

New licensing camera car was implemented at the end of 2011. 2012 was the first full year utilizing the new technology.

The compliance rating (education element) has maintained in the mid 80% year over year.

Joint meetings with cross functional membership have expanded into other areas, to continue collaboration and a proactive approach to behaviour issues. Going forward these efforts will continue by participating in a restorative alternatives pilot project initiated by the University of Guelph.
Internal Process Performance

Monitoring the process that we need to excel at in order to provide services and ensure customer and stakeholder satisfaction provides us information required to identify and prioritize continuous improvement activities.

The focus of the department is on compliance, enforcement is used when all other avenues of compliance have been exhausted. Tickets issued have gone up slightly.

Ticket cancellations have decreased over the last three years. Tickets can be cancelled for reasons such as educational (first time offender), errors, compassion, etc. This reduction is an indication of increased quality in enforcement.
Organizational Capacity Performance

Monitoring the performance in the identified areas of organizational capacity will allow us to ensure that we can sustain our ability to change and improve.

Attendance has been within the target of 95% over the last four (4) years.

Bylaw Compliance, Security & Licensing engagement level is 65%.

The top three (3) engagement drivers identified for this area were Managing Performance, Recognition and Resources.

An action plan was developed and implemented to address these drivers in 2013.

Another corporate engagement survey is schedule to be conducted on 2014.
CSP Support

The Bylaw Compliance, Security & Licensing area's 2013 work plan included two (2) projects that directly supported the Corporate Strategic Plan (CSP) and its initiatives for Citizen First/Customer Service Excellence.

- Removal of excessive paperwork, through amalgamation of items and the addition of credit card payment options increased the processing speed for the renewal of business licenses.

- Streamline the application process through review and subsequent removal of redundant administrative steps resulting in a reduction in the wait time for property owners.
2013 Accomplishments

Service Improvement

- Exemption program for fireworks and exotic animals which decreased processing time and the requirement for Council approval (through a delegation of authority bylaw) providing improved service for the applicants

License Category Creation

- Implementation of a Driving Instructor category for business licensing. Collaborative effort with the driving instruction industry to provide regulation for instruction locations across the City of Guelph

Public Education

- Conducting public education on Coyotes to improve public understanding and safety

Community Engagement

- Utilization of the Community Engagement framework for a number of projects including the nuisance bylaw. While the outcome did not meet the objectives, this was a large initiative that recognized the diversity of the community and promoted inclusiveness
2014 Initiatives

Customer Service Improvement

Utilization of technology to provide online options to the community for requests for service and payment options. 'How Can We Help You'

Infrastructure Replacement

Replacement of security infrastructure at City Hall, POA and River Run Centre

Efficiency Review

Review of the process for accessible parking applications to identify redundant and/or unnecessary activities to gain efficiencies in service provision

Community Engagement

Undertake a collaborative effort with community stakeholders to review and recommend revisions to the Animal Control By-law
