---

## Water Conservation and Efficiency Public Advisory Committee

September 24, 2019 at 7:00 pm

Guelph Wastewater Treatment Plant, 530 Wellington Street (West gate), Main Boardroom

From 7:00 to 9:00 p.m.

Committee Membership: Grant Parkinson (GP) - Chair, Jaime Boutilier (JB) – Vice Chair, Justin Arbuckle (JA), Louise Cottreau (LC), Taylor Dorland (TD), Emma Thompson (ET), David Worden (DW), Patty Quackenbush (PQ)

Staff: Travis Pawlick (TP), Stephanie Shouldice (SS), Nathan Siniowski (NS), Emily Stahl (ES), Heather Yates (HY)

## Agenda Items

### Item 1

Introductions and confirmation of meeting notes (June 4, 2019)

### Item 2

Wastewater Treatment overview and efficiency related studies – T. Pawlick

Description: A summary presentation on the Wastewater Treatment process and two studies with connections to Water Efficiency projects; the Assimilative Capacity study and the Reclaimed Water Feasibility study.

### Item 3

Water Supply Master Plan and update – E. Stahl

Description: A brief discussion and overview of the Water Supply Master Plan, historical drivers for water efficiency and updates required for an updated Plan in 2020.

### Item 4

Integrated Water Mapping Project – N. Siniowski

Description: A presentation on the Integrated Water Mapping project. There will be opportunity for discussion on data outputs from the project that would be useful for the community and for guiding water efficiency programs.

### Item 5

Blue Built Home (BBH) overview – S. Shouldice

Description: A presentation on the BBH program and next steps for program development including the incorporation of new multi-residential properties and an online hall-of-fame. There will be opportunity for discussion on program developments and the BBH customer journey.
